- Cold Water Service
- Hot Water Service
- Warm Water Service
- Waste Water
- Fire Services
- Backflow Prevention

This part of the Stage 2 base redevelopment is a key project for Defence on Amberley's progression to become a Mega-base. The project involved the construction of a new 'line maintenance' aircraft hangar and associated support facilities for the RAAF to house their new Multi-Role Tanker Transport (MRTT) Aircraft the Airbus A330-200. The RAAF will be the first in the world in receiving this aircraft in its modified form for air-to-air refueling.
