

COMPANY PROFILE

SPP Group is a dynamic, Australian Owned, Quality Assured company incorporated in 1978, operating in the highly competitive field of Hydraulic and Fire Protection Services, SPP Group's fresh approach to problem solving, together with technical expertise and cost effectiveness, have earned the company an enviable track record as well as that all important vote of Client confidence, repeat business.

With established offices in Adelaide, Brisbane, Melbourne, Sydney, Perth, Mackay, the Gold & Sunshine Coasts the company is well placed geographically to service Local and National Clients with the ability to offer an equivalent level of service to the industry from each office.

The company over the past thirty-two (32) years has designed documented and supervised projects in Queensland, New South Wales, Victoria and Western Australia to a project construction value of in excess of \$5 Billion.

Amongst the countless reasons for our success, innovation is one reason. Textbook solutions to problems are often suited only to textbook projects. We look beyond these constraints for more practical solutions. Technical skill is another reason, which coupled with our experience in the many market sectors; construction administration of projects is another of our strengths.

Cost effectiveness is another critical consideration not only in design and execution, but also in problem solving, programming and client service in itself. With our progressive approach we are able to handle all hydraulic consultancy functions, from research and feasibility studies through cost effective design, to commissioning and regulatory responsibilities.

The SPP Group's team have extensive experience in the design documentation and construction of infrastructure and building services for specialist use buildings such as retail facilities incorporating varying methods of procurement.

The SPP Group believe in encouraging staff on all levels to contribute to the effectiveness of the company by nurturing their input and endorsing their interest in further studies, and industry committees. This helps to maintain pride and commitment from employees, which is inevitably transferred to you, our valued Client.

Our teams provide an unequalled level of service on projects of technical difficulty, paying particular attention to our client needs which is the hallmark of SPP Group's approach. We have an unrivalled reputation for creating outstanding hydraulic solutions while managing major design projects to tight programmes and budgets.

The SPP Group maintain our status at the various prequalification and approval for Federal, State and Local Government Departments.
